Damascus, Syria | +963 993 544 123 | hanindowah@gmail.com

SUMMARY

UI/UX Designer specializing in creating intuitive, user-centered digital experiences. Skilled in transforming complex problems into seamless interfaces through research, prototyping, and iterative design. Combines aesthetic sensibility with systematic thinking to build cohesive design systems and interactive prototypes. Possesses technical understanding of frontend development, enabling seamless collaboration with engineering teams and designing feasible, implementable solutions.

SKILLS

User Research & Strategy:

User Interviews - Personas - Problem Definition

UI/UX Design:

Wireframing - Visual Design - Interaction Design - Mobile-First Design

Prototyping & Testing:

High-Fidelity Prototypes - Usability Testing - User Flow Validation - Iterative Design

Design Systems:

Component Libraries - Style Guides - Documentation

Other skills:

Creativity - Attention to details - communication - Empathizing with user

Tools:

Figma

Technical Awareness:

Frontend Fundamentals: HTML5 - CSS3 - JavaScript - TypeScript

Frameworks & Libraries: React.js - Flutter

Development Concepts: Component Architecture - API Integration - Responsive Implementation

EXPERIENCE

Freelance UI/UX Designer | Feb 2024 – Present

Designed 8+ digital solutions (web apps, mobile interfaces, dashboards) improving user task completion rates by an average of 35%
reducing design-development handoff time by 40%

Conducted user research with 20+ participants, translating insights into data-driven design decisions

UI/UX Design Intern | Connect Agency | Sep 2025 – Nov 2025

Designed a multi-platform e-commerce system (web dashboard & mobile) serving 4 distinct user roles admin, vendor ,driver, customer

Created a unified design system adopted by 5+ developers.

Improved interface usability scores by 25% through iterative prototyping and testing

UI/UX Design Volunteer | Digit Innovation Center, Damascus | Dec 2025 – present

Collaborated with developers to ensure design feasibility and implementation accuracy

EDUCATION

Damascus University - Syria, Damascus | 2021 – 2026 Expected

Bachelor of Information Technology Engineering

Specialization in Software Engineering and Information Systems

Advanced UI/UX Design Certificate by UNRWA | 2024

Completed through Damascus Training Center (DTC) program

LANGUAGES

Arabic: Native Proficiency

English: Professional Working Proficiency .

DESIGN APPROACH

Research-driven designer who bridges user needs with business goals through technically feasible solutions. My software engineering background enables seamless design-development collaboration and implementation-ready deliverables
